Dreams On A String

12.01.2021 – 06.02.2021

Esra Karaduman's exhibition, *Dreams On A String*, can be viewed at Ferda Art Platform between 12.01.2021- 06.02.2021. The artist's first solo exhibition, *Dreams On A String*, shows the artist's relationship with miniature art. Karaduman, who has always used literary inspirations in her art, tells her own story with miniature art in the exhibition and takes the viewer on a journey deep into the subconscious.

The works in the exhibition, which show various landscapes from the artist's dream world, bring a new and more original perspective to miniature art, while emphasizing the artist's interdisciplinary versatility. Her delicate and elegant works, which she works with miniature ink on handmade paper, draw the viewer into a peaceful and serene world. Canvas and paperwork, as well as a Proust reading, which can be heard from the artist's own voice, accompany the installation work.

Dreams On A String, serve as a new field of experimentation in which Esra Karaduman carries traditional Turkish miniature art to the modern world. In the exhibition, which reflects the artist's two years of production, the audience encounters an experience outside the usual limits of miniature.
