Freak Show

12.01.2021 – 06.02.2021

Bekir Sert's exhibition, *Freak Show*, will be available at Ferda Art Platform between 12.01.2021-06.02.2021. After his mixed and solo exhibitions in New York, Paris, Capri and Istanbul, Sert presents his new solo exhibition to the viewers. In the exhibition, artist opens the doors of his own circus, introduces us to his own freaks, and shows us that the human mind considers those who do not conform to its own "norms" to be "freaks".

Based on this situation, his exhibition *Freak Show*, in which he creates his own "beautiful" freaks, takes the viewer on a journey through his own world. In the "minimal oddity" tent, navigable through impossible panoramas, you can meet the stories of Tar Beauty Narcissa and The Lightning Catcher; you can see the trees that witnessed the last falling snow on earth and try to solve the prophecies of the post-modern Sphinx.

Bekir invites viewers into his own mind with his bold colours and sharp lines in his works, which will be exhibited for the first time at Ferda Art Platform. *Freak Show*, which can be visited between 12.01.2021 – 06.02.2021, aims to be an introduction to the colourful, bottomless and unique world of the artist.
