

Rabia Kalyoncuođlu

Disappearance on the Verge of Existence

17.10.2020 – 14.11.2020

Rabia Kalyoncuođlu's exhibition *Disappearance on the Verge of Existence* can be viewed at Ferda Art Platform between 17.10.2020-14.11.2020. *Disappearance on the Verge of Existence* presents a personal inquiry into the changing social structure of the artist's first solo exhibition. Offering an arrangement on the reflections of cultural and social differentiation on smaller scales, Kalyoncuođlu reconstructs traditional materials by adding a modern interpretation.

With the visuals she drew on dowry fabrics that have been passed on for generations in her family, the artist evaluates materials that have been forgotten and left to deteriorate in dowry chests for years. The series of *Disappearance on the Verge of Existence*, in which Kalyoncuođlu aims to bring the past and the present together in the same material, is presented to the audience as a re-examination of the dowry tradition of centuries.
